LIAM MULLER

FULL-STACK WEB DEVELOPER

PERSONAL PROFILE

I am a software engineer with a focus and passion for web development. I am looking to join a team that is focused on building people-first tools and applications.

WORK EXPERIENCE

Software Engineer II

Chewy | June 2021 - Present

- Developed software for compounding pharmacy operations that helps expedite medication to pets and pet parents.
- Lead UI / UX efforts and was the resident frontend expert on the team.
- Built with: React, TypeScript, Java, Java Spring

Software Engineer

Newfold Digital / Endurance International | July 2019 - June 2021

- Developed and supported multiple applications focused on giving small businesses their own space online.
- Researched and developed successful A/B tests to optimize conversion rates.
- Developed internal development tools such as a feature flag service and in-product messaging service.
- Built with: React.JS, .NET, Azure, Cloudflare, and more.

PROJECTS

Palanaeum - Book Club App

- A book club app for people to read and discuss their favorite books together with a strong focus on spoiler protection. Create a club, import a book, invite some friends and start enjoying the discussion.
- Link: palanaeum.app
- Built with: React.JS, TypeScript, Remix, Postgres

Personal Site

- My own personal site built to go further in-depth on my experience and projects.
- Full writeup for each job and project I have been a part of.
- Includes a "now playing" popup whenever I am listening to something on Spotify, checked into a movie or show on Trakt, or playing a game on Steam.
- Link: lmuller.me
- Built with: React.JS, Next.JS, Tailwind CSS

EDUCATIONAL HISTORY

Rochester Institute of Technology

BS Computer Science | 2019

- Dean's List x3
- Merit Scholarship x2
